Austin Emig

Software Developer Student

Duncansville, PA · aj3psv123blair@gmail.com · github.com/EliteEagle2 · eliteeagle.dev

Professional Summary

Software Development student with three years of career and technical training and one year of college. I build full-stack web applications, desktop software and games in JavaScript/TypeScript, PHP, C# and Java. Seeking a Summer 2027 software development internship.

Technical Skills

Languages: Java, C#, JavaScript, TypeScript, PHP, SQL, HTML, CSS, Visual Basic
Frameworks & Platforms: Node.js, Express, ASP.NET MVC, WordPress (custom plugins), LWJGL, discord.js
Databases: MySQL, SQLite
Tools & Deployment: Git/GitHub, Jira, Linux, DigitalOcean, Cloudflare Tunnel, DreamHost
AI Tools: Claude Code, OpenAI Codex; writing feature specs and reviewing AI-generated code

Education

South Hills School of Business & Technology, Altoona, PA — Expected Sept 2027
Specialized Associate Degree in Software Development & Programming · GPA 3.86

Greater Altoona Career & Technology Center (GACTC), Altoona, PA — May 2025
Certificate of Completion in Computer Programming · GPA 3.7

Projects

Elite Eagle Development Store (AI-assisted) Node.js, Express, SQLite store.eliteeagle.dev
- Launched a live storefront selling websites, software and Discord bots, with checkout and a product license system
- Deployed on a DigitalOcean Linux server through Cloudflare Tunnel; reviewed and tested all AI-generated code

User Management Dashboard Node.js, Express, SQLite; rebuilt in PHP/WordPress GitHub
- Hand-coded signup, login and session routes with bcrypt password hashing and an admin panel listing all users
- Rebuilt it as a WordPress plugin, fixing 9 security and logic flaws including an unprotected user list and XSS

Blockcraft: Skywright (AI-assisted) Java, LWJGL, Claude Code
- Developing an open-world voxel sandbox game with mining, building, crafting and an original story questline
- Planned a phased roadmap with a version-managing launcher and .exe/.msi installers; running beta tests

Alto Bank (AI-assisted, class project) C#, ASP.NET MVC, Claude Code
- Building an online banking web app from scratch using MVC, with an original brand and color scheme

Experience

Walmart - Associate, Duncansville, PA — May 2025 - Present
- Select and fulfill online grocery orders with speed and accuracy
- Hand off orders to customers and delivery drivers while providing friendly service
